

TRAILS COMMITTEE REPORT – Parks and Commons Commission – October 4, 2022

YIPS! – Major efforts to remove ivy, blackberry, and morning glory plants from areas of the Commons Park are ongoing and are making a significant difference.

Trails – Several sets of steps on the Ya’Xaik Trail have been replaced. There are several other areas in which the original logs used as retaining walls are starting to fail.

We are contemplating removing and replacing the roofing in some parts of the boardwalk and would appreciate some input from PCC about how doing so does or doesn’t fit in with other plans for renovation of sections of the boardwalk.

Walkway project – It appears that this project is “on hold” until the long-rumored transfer of Ocean View Drive from the County to the City is completed.

Fire Department Trail – The Fire Department arranged for considerable clearing to be done along the route of the new trail between the Ya’Xaik Trail and Highway 101. We have permission from the Forest Service to install some signage at the intersection of the Ya’Xaik Trail and the FD Trail.
