To The Yachats Planning
Commission,

Yachats Ocean Road needs a designated walking path for pedestrians. The narrow road is used for 2 way traffic and people must rely on drivers to slow down so they can move to the side of the road.

Plans to make this road safe for all, means that no property owner should be granted a variance on the easement that will be used for a future walkway.

If a variance on this valuable easement is made for one, it must be made for all.
