The area is rough terrain and is not ADA accessible. After the report was given, it was suggested how the area should be advertised, and that it would need signage. It was also stated CIS would not insure any park areas extending past city limits, where ocean access enters State boundaries. CIS may reserve the right to charge additionally for the exposure, and up to potentially not insuring these areas.

A Council member believes that the liability clause may be in question and would like to have this reviewed. After Council discussed and agreed they would like to have CIS return for another visit, to include additional members from Parks &
