

# **CIP# - Wastewater Master Plan**

**Status:** Engineering/Design Phase

**Project Category:** Wastewater

**Project Estimated Cost:** \$90,000

## **Project Description**

The previous Wastewater Master Plan was completed in 2009 when the new wastewater plant was brought online. The new Wastewater Master Plan will identify any improvements, upgrades and repair issues that may be needed in the wastewater system.

## **Project Manager**

**Dave Buckwald**  
541-547-3565

## **Project Schedule**

**7/1/2018** Council Adopted budget including the Water Master Plan

**4/1/2019** Tasked Westec Engineering to update the master plan

**4/15/2019** Applied for \$20,000 assistance grant from Business Oregon

**12/2/2019** Awarded \$20,000 grant for Business Oregon

## **Project Justification**

- A 20 year Wastewater Facilities Plan is required by the governing agency -The DEQ -Department of Environmental Quality.
- Establishes a capital improvement and capital maintenance plan for the Wastewater system

- Projects that are identified in the Wastewater Facilities Plan may qualify for grants if a grant opportunity arises
- Plans for future growth
